A WORLD OF HYDROGEN

# SHAPING THE FUTURE OF HYDROGEN, WORLDWILDE

GL events

AN EVENT greentech+

# GLOBAL LEADERSHIP LOCAL OPPORTUNITIES REAL BUSINESS

Hyvolution is more than a trade show — it is a **global business platform** designed to accelerate your development in the most dynamic hydrogen markets.

At its core, Hyvolution Paris stands as a flagship event, bringing together the entire value chain and key decision-makers from around the world.

Building on this foundation, Hyvolution has expanded internationally, with events in **high-potential markets**. Each edition connects you directly with **local ecosystems, active projects, investors and industrial players**, enabling concrete partnerships.

As the hydrogen market shifts from ambition to implementation, being present in the **right markets is essential**.

**HYVOLUTION CONNECTS GLOBAL VISIBILITY WITH LOCAL OPPORTUNITIES — PLACING YOUR BUSINESS AT THE HEART OF THE HYDROGEN ECONOMY.**

# THE GLOBAL MEETING POINT OF THE HYDROGEN ECOSYSTEM

For more than a decade, Hyvolution Paris has been bringing together the entire hydrogen value chain, from production to end-use applications.

The event has become one of the world's leading hydrogen business platforms, attracting decision-makers, investors, and project developers from across the globe. In a market moving from announcements to execution, it helps companies position themselves ahead of major investment decisions expected between 2027 and 2030.

- **Strong international participation**
- **Complete value chain** representation
- **High-level conference** programme
- **Synergies** with the global Hyvolution network

# CONTENT HIGHLIGHTS

**240** speakers

**30** Roundtables, Keynotes, Special addresses and Masterclasses

**60+** Workshops

**30+** talks at the Associations Pavilion

**20+** expert sessions at the Natural H2 Pavilion

Editorial content aims to bring value by aligning with market trends: hydrogen and molecules production, heavy duty mobility, maritime and aviation sectors, industrial off-takes, infrastructures, certification, financing and political frame. World-class experts and c-level speakers share their insights, bringing together thousands of «doers».

# GATEWAY TO LATIN AMERICA'S HYDROGEN MARKET

Brazil is emerging as one of the world's most promising hydrogen markets, driven by abundant renewable resources, a strong industrial base and a rapidly evolving regulatory framework.

Hyvolution Brasil connects international companies with the fast-growing Latin American hydrogen ecosystem, bringing together industry leaders, policymakers, investors and project developers.

- **A national hydrogen market** entering a new phase of implementation
- **R$ 18.3 billion Low-Carbon Hydrogen Development Program** (PHBC) supporting large-scale projects
- **Strong industrial demand** across fertilizers, SAF, maritime, chemicals and heavy industry
- **A strategic platform** bringing together public authorities, international experts and leading industry players
- **Partnerships with leading national associations**, business agencies and local institutions

# CONTENT HIGHLIGHTS

## 3 CONTENT AREAS

- HySummit – Latin America's leading hydrogen congress
- Carbon Capture & Storage (CCS) Forum
- Exhibitor Seminar Programme

## KEY SESSION TOPICS

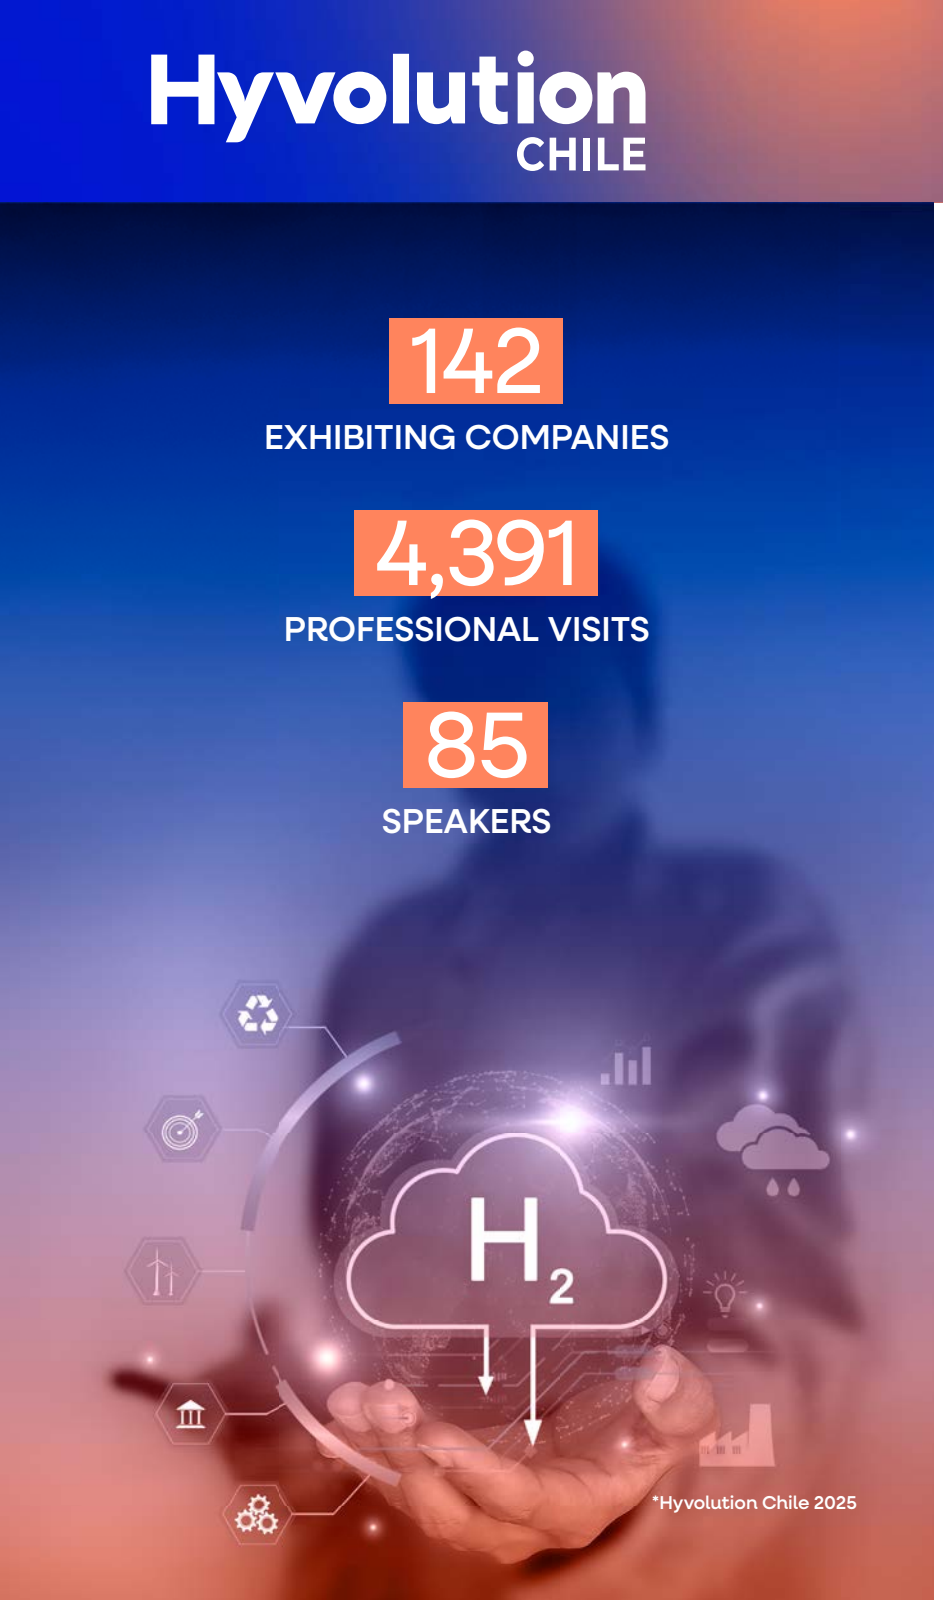

- Scaling up Brazil's hydrogen market: regulation, financing and industrial deployment
- Securing hydrogen offtake: creating demand and enabling bankable projects
- Green hydrogen derivatives: SAF, green ammonia and maritime decarbonisation
- Public-private partnerships and investment mechanisms to accelerate market growth
- International cooperation and lessons learned from global hydrogen markets
- Gender equity and social inclusion: enabling a just energy transition

*Hyvolution Chile 2025

# ONE OF THE WORLD'S MOST AMBITIOUS GREEN HYDROGEN STRATEGIES

Chile aims to become a global exporter of green hydrogen, leveraging exceptional renewable resources and strong government support.

Hyvolution Chile connects project developers, investors and technology providers to accelerate the deployment of large-scale hydrogen projects.

- **National hydrogen strategy** with strong public support
- **One of the world's** best renewable energy resources
- **Active hydrogen** ecosystem
- **Strategic networking** opportunities with decision-makers

# VISITORS PROFILE

- **Project developers**
- **Energy companies** and **industrial off-takers**
- **Investors** and **financial institutions**
- **Technology providers** and **EPC companies**
- **Public authorities** and **policymakers**
- **Research centres** and **universities**
- **International delegations** from Latin America and Europe

The 2026 edition aims to expand its international reach, strengthen the participation of new technologies and solutions, and consolidate its position as a key platform to address the financing, infrastructure, and regulatory challenges facing the green hydrogen industry in the region.

> *The diversity of audiences and exhibitors in Hyvolution Chile allows expanding the general knowledge of hydrogen issues within the country and allows bringing to Chile and Latin America the knowledge that is being developed worldwide.*
>
> ***Darren LEDERMANN,***
> *Wood PLC*

# CONTENT HIGHLIGHTS

## KEY TOPICS

- Large-scale green hydrogen project deployment
- Export strategies and international hydrogen corridors
- Infrastructure and financing challenges
- Industrial decarbonisation and derivatives
- Innovation and technology development
- Public-private collaboration in Latin America

## NETWORKING & BUSINESS

- Dedicated B2B meetings and strategic networking opportunities
- Strong participation from international delegations and investors

# INNOVATION HUB FOR HYDROGEN TECHNOLOGIES

Canada is a global leader in hydrogen technologies, innovation and export solutions, supported by a strong industrial base and ambitious public policies.

Hyvolution Canada focuses on technology innovation, research and cross-border collaboration, particularly between Canada, Europe and the United States.

- **Strong innovation** ecosystem
- **Support from provincial and national governments**
- **Strategic collaboration** between Canada and Europe
- **High-level conference** format focused on expertise

*It's important for me to be at Hyvolution Canada because we have a very strong industry here in Québec and across Canada. As we all know, Canada was a pioneer in this field over 100 years ago, with the Stuart family who invented and developed electrolyzer systems.*

***Prof. Bruno G. POLLET,***
*President of the Clean Hydrogen Division at International Association for Hydrogen Energy (IAHE) - Chair Holder, Canada Research Chair in Clean Hydrogen*

# CONTENT HIGHLIGHTS

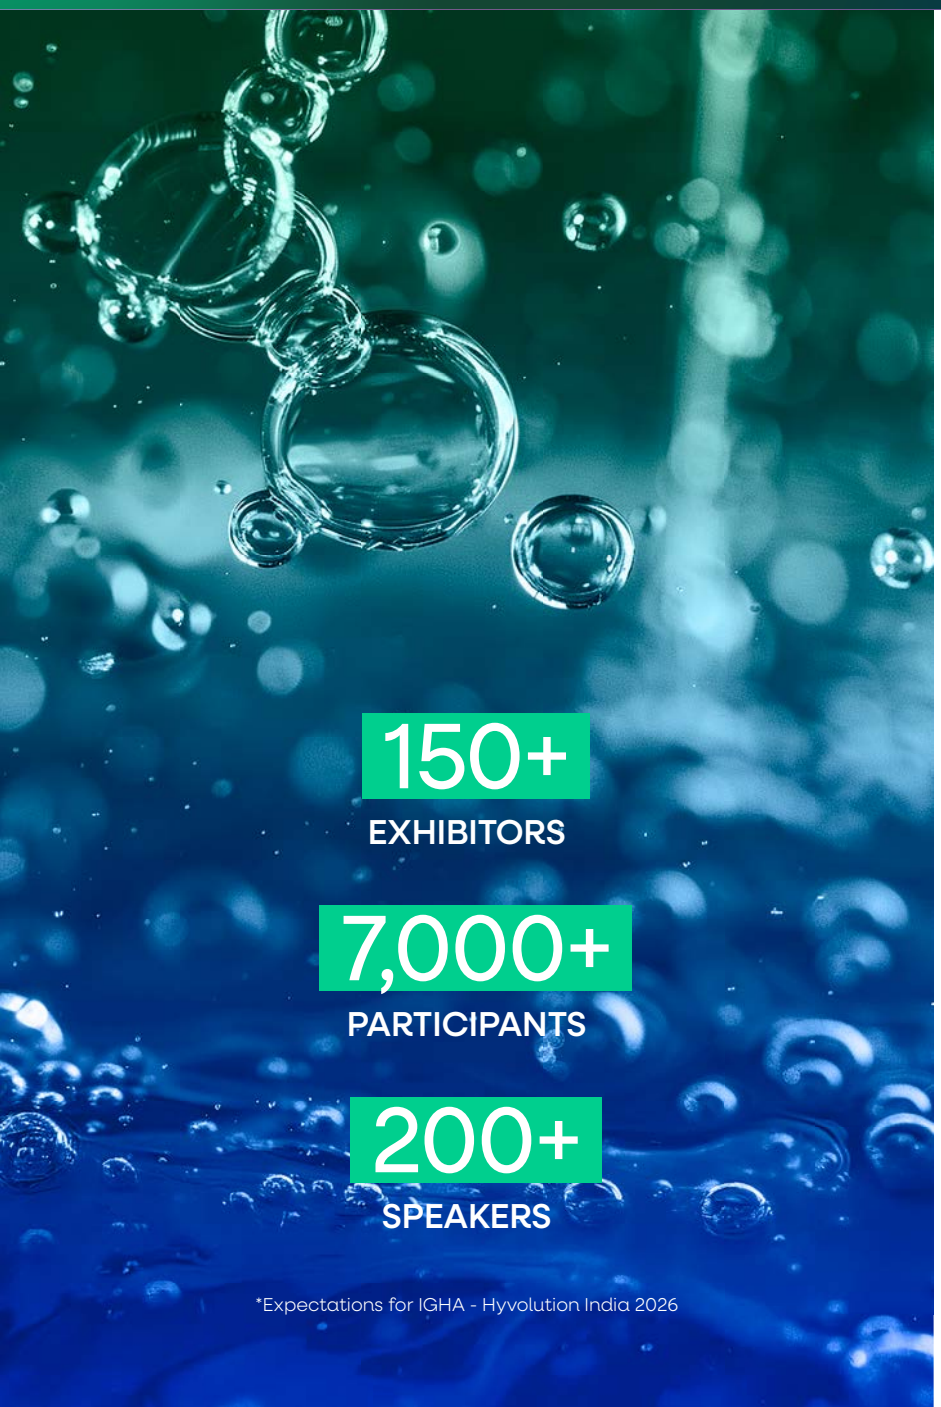

## CONTENT HIGHLIGHTS

- A streamlined, impact-driven programme designed to deliver tangible value to participants
- Built with the active support of key strategic partners: SIA Partners, Hydrogène Québec, UQTR, Canadian Hydrogen Alliance...
- Enriched agenda featuring: France / Québec Day, German / Canadian seminar, Contribution from the U.S. association FCHEA

## KEY TOPICS WILL INCLUDE

- Updates from the Canadian Hydrogen Observatory, with a U.S. outlook
- Hydrogen development in North America
- Energy resilience and strategic applications
- Advancements in the hydrogen supply chain
- Applications in defense and mining sectors
- The role of Indigenous communities as key partners in sustainable project development

# ONE OF THE WORLD'S FASTEST GROWING HYDROGEN MARKETS

India has launched one of the most ambitious hydrogen missions globally — the National Green Hydrogen Mission — targeting 5 MMT of green hydrogen annually by 2030, with over ₹8 lakh crore in projected investments and 6 lakh jobs. IGHA – Hyvolution India gives international companies direct access to this rapidly growing ecosystem, connecting them with the project developers, industrial off-takers, policymakers, and investors shaping India's hydrogen future.

- **National Green Hydrogen Mission:** ambitious national mandate with binding 2030 targets
- **Massive industrial demand:** steel, fertilisers, refining, ports and mobility creating real off-take pipelines
- **Strategic partnerships with Indian institutions:** co-organised with GH2 India and supported by MNRE
- **Strong conference programme:** 200+ global and Indian experts across policy, technology and investment

Co-organised by **GL events, GH2 India** and **Apoltos Events (AEPL)** as Event Partner.

Supported by **India's National Green Hydrogen Mission (NGHM), Ministry of New and Renewable Energy.**

# VISITORS PROFILE

## IGHA – HYVOLUTION INDIA BRINGS TOGETHER THE FULL DECISION-MAKING CHAIN OF INDIA'S HYDROGEN ECONOMY

- **Government officials and policymakers**: union and state ministries, MNRE, international delegations
- **Project developers**: companies building green hydrogen, ammonia and derivatives projects across India
- **Industrial off-takers**: steel, fertilisers, refining, cement and maritime
- **Investors and financial institutions**: DFIs, infrastructure funds, green bond desks, private equity
- **Technology providers and OEMs**: electrolysers, storage, fuel cells, digital solutions
- **EPC and engineering firms**: large-scale contractors with hydrogen project pipelines
- **International delegations from 30+ countries**: seeking Indian partners for export and co-development
- **Research institutions and innovators**: IITs, national laboratories, startups

# CONTENT HIGHLIGHTS

## STRATEGIC CONFERENCE

- High-level dialogue on policy, investment and market development — ministers, CEOs, investors and international leaders.

  ***Key themes:*** *Global Hydrogen Policy • India as Green Hydrogen Hub • Scaling Production • Global Hydrogen Corridors • Energy Security • Industrial Transformation • Investment Pathways*

## TECHNICAL CONFERENCE

- Engineering excellence across the hydrogen value chain — built for practitioners who need answers, not headlines.

  ***Key themes:*** *Production & Electrolysers • Storage & Transport • Industrial Decarbonisation • Mobility & Fuel Cells • Digitalisation & AI • Safety & Standards • Cost Reduction*

## LEADERSHIP ROUNDTABLES

- Invite-only, closed-door CXO dialogues — where the most consequential conversations happen away from the main stage.

  ***Sessions:*** *CEO Circle • Investor Roundtable • Global Leaders Dialogue • Unlocking the Cost Curve*
